STIMULAN®
POWER TO TRANSFORM™

Uniquely engineered for the precision and control you demand every time
Control and performance at your fingertips

STIMULAN is a truly absorbable calcium sulfate precision engineered with your demands at the forefront.

- One of the few calcium compounds FDA cleared for infected sites\(^1\)
- No hydroxyapatite, insoluble impurities or PMMA debris
  - Does not cause third body damage\(^2\)-\(^4\)
  - Does not prevent use in articulating surfaces\(^2\)-\(^4\)
  - Does not act as a nidus for infection\(^5\)-\(^10\)
Consistency is hard earned and uniquely achieved

There is no shortcut to perfection. Which is why we go the extra mile to bring you the exceptional performance characteristics of STIMULAN – all made possible through our proprietary DRy26™ methodology.

Each and every synthesis of STIMULAN undergoes a 26 step process that starts with pharmaceutical grade precursors and takes over 6 weeks to reach maturity.

Our unique DRy26™ recrystallization method dehydrates then rehydrates to precisely restructure the calcium sulfate. This ensures a uniform starting point from which the material is rebuilt under strictly controlled conditions for the highest level of consistency.

The result is as you would expect from the world’s leading expert in innovative calcium technologies.
Case-by-case flexibility and success

Every part of STIMULAN has been designed to provide simplicity, intra-operative flexibility and optimum results. A variety of formats are available, all convenient to prepare and fast to set.

Unrivaled evidence and expertise brings confidence

With our industry-leading knowledge, dedication and experience, you can be sure that the high level of consistency you demand in your cases will be met.

Support as reliable as our outcomes

To ensure that you achieve the consistent results you expect, our comprehensive network of regional calcium sulfate specialists, expert sales representatives and surgeons already using STIMULAN are ready to support your use.
Properties that drive performance

The unique crystal configuration and construction of STIMULAN brings its own set of qualities to fully support your infected cases.11

- Physiological pH
- Controlled purity (no insoluble impurities)
- No hydroxyapatite
- Hydrophilic

- Truly absorbable5-10
- Optimal absorption profile5-10
- Reliable setting time12
- Physiological compatibility with the body5,10,12
- No third body damage2-4
STIMULAN®

When you need it – STIMULAN delivers every time

- FDA cleared for placement at an infected site
- Uniquely engineered through our DRy26™ recrystallization method
- No hydroxyapatite, insoluble impurities or PMMA debris
- Does not cause third body damage
- Does not prevent use in articulating surfaces
- Does not act as a nidus for infection
- Truly absorbable
- Reliable for time sensitive situations
